

# Table-Powered Beach Chair

## Use the Power of Your OR Table.

The Table-Powered Beach Chair easily attaches to the leg section of your surgical table and positions the patient using the power of the table! Supports up to a 400 lbs. (181 kg) patient. Effortlessly positions patients throughout the 0° - 90° articulation range.

- **Power Lift:** Utilizes the power of the surgical table to raise and lower the chair
- **400 lbs. (181 kg) Weight Capacity:** Accommodates most patients
- **Sliding Headrest:** Reduces stress on the neck when raising and lowering the patient
- **Width Extension:** Adjustable width - fits all surgical tables 21 $\frac{3}{8}$ " to 23" (54.3 cm - 58.4 cm) wide
- **Head Rest Design:** Allows greater movement to accommodate shorter patients
- **Unique Table Pad Integration:** Prevents gapping between the pad and chair
- **Sliding Headrest:** Reduces stress on neck when raising and lowering the patient
- **Expanded Surgical Access:** Large cut-out for excellent surgical access
- **Articulation Range:** 0° - 90°
